Mr. Graham E. Mitchell  
FMPC Coordinator  
Ohio Environmental Protection Agency  
40 S. Main Street  
Dayton, Ohio 45402

Dear Ms. McCord and Mr. Mitchell:

**REVISED FMPC RI/FS AND REMOVAL ACTION COMMUNITY RELATIONS PLAN**

Enclosed is the revised Community Relations Plan for the Remedial Investigation and Feasibility Study (RI/FS) and Removal Actions being conducted at the Feed Materials Production Center, to meet the June 4th deadline. All 73 comments identified in your May 4th letter have been addressed. For your information, a status of each comment and DOE's resolution is also enclosed.

The revised plan reflects a modification to the community relations documents for removal actions. The revised plan contains generic requirements for all removal actions which may be conducted at the FMPC. Therefore, DOE will no longer prepare individual Community Relations Plans for each removal action.

DOE is confident that all EPA comments have been addressed with two exceptions. First, all references to the RI/FS-Environmental Impact Statement are retained in the document. We believe it very important to have an integrated approach to community relations covering both CERCLA and NEPA requirements. This will ensure the most effective and efficient communications with the public. Second, discussion of changes to the Administrative Record do not include those changes that have not yet been implemented; such changes will be added to the plan after they are announced to the public.

If you have any questions, please contact Bobby Davis or Andy Avel at (513) 738-6156 or (513) 738-6161, respectively.

Sincerely,

Gerald W. Westerbeck  
FMPC Site Manager
